Expansion Committee Update
Sylvia Smith, chair and Daniel Pallotta, P3 Consultant

The Senior Center Expansion Committee is actively preparing for the next critical phase of the Expansion Project. In order to move forward with the acquisition and renovation of an expanded senior center we are recommending a West County Senior Services District be approved at the special town meetings in Ashfield, Buckland and Shelburne this fall. This action does not cost any money! But it does provide the structure we need to proceed.

Once this agreement is approved, we will be well on our way to follow up on the work done last fall identifying properties to purchase and renovate. When we're ready to make those decisions there will be specific information and, again, town meetings to approve the recommendations and costs.

Watch for your fall town meeting dates and more information! And.....participate in taking this important next step with us!
